Analysis of Anticancer Drugs

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Analysis of Anticancer Drugs | Monitoring of anticancer drugs in biological fluids and tissues is important during pre-clinical and clinical use. Traditionally, liquid chromatography (LC) in combination with ultraviolet, fluorescence, or electrochemical detection is employed for this purpose. The successful hyphenation of LC and mass spectrometry (MS), however, has dramatically changed scope of analysis. MS detection provides better sensitivity and selectivity than UV detection and, in addition, is applicable to a significantly...
