Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from An Experimental Inquiry Into the Botanical History, Chemical Properties, and Medicinal Virtues, of the Spiraea Tomentosa of Linnaeus: Submitted as an Inaugural Essay to the Public Examination of the Trustees and Professors of the College of Physicians and Surgeons in the State of New York The introduction of a new medicine into general use, is necessarily slow, as its reputation must be acquired and maintained by the test of experience. Many remedies, which are now universally regarded, as among the most estimable in the Materia Medica, were doomed to serve in subordination, while the process of practical experiment was demonstrating their efficacy, and their claim to the character which they have obtained. Many of our indigenous plants have of late received considerable attention, and some have proved important acquisitions to the resources of the physician; others, which were no less extolled for their virtues, have scarcely survived the eulogy of their discoverers. In the present state of medical science, it is to be expected, that whatever new may be offered on this subject, and however plausibly it may be urged, will be received with little confidence, unless supported by authority that cannot be questioned. But notwithstanding this professional scepticism, the subject of this inquiry is one, which is confidently believed will, ultimately, be regarded as a valuable auxiliary to the astringents already in use. The plant possesses efficient and valuable medicinal properties, and independent of the writer's feeble testimony, he is persuaded that it must sooner or later excite general notice. It may be said, that our present catalogue of medicines is already sufficiently extensive, and that we had better perfect our knowledge...
