paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 329 Publisher: China Construction Industry Pub. Date :2009-04-01 version 2. Book the past few years of teaching practice. and national water process equipment based courses. seminars on behalf of their comments and suggestions In the water-based process equipment (first edition) on the basis of the content adaptation and revision. This book includes the basics of papers and articles in two parts water process equipment. basic knowledge of articles focuses on the manufacture of water process equipment. design. technological characteristics. the basis of the applicable conditions and other related knowledge. including water. materials commonly used in the classification process equipment. performance. Corrosion protection principles. commonly used method of corrosion protection. insulation materials. and container stress the basic theory. principles of mechanical transmission. mechanical manufacturing and processing and heat exchange theory; water treatment process equipment technology articles about places in the classification of special equipment . composition. characteristics and use conditions. and other content-based. including container (tower) equipment. mixing equipment. aeration equipment. separation equipment. heat transfer equipment. sludge disposal equipment and dosing equipment. water treatment works involved in the general equipment and special equipment. without making the book introduction. This book can be used as water supply and drainage engineering colleges and universities and related professional materials. but also as a reference for engineers and technicians. Contents: Part 1 Chapter 1 of the basics of water process equipment commonly used metal materials 1.1 1.3 1.2 inorganic non-metallic materials. composite materials. polymer materials 1.4 thinking questions in Chapter 2 materials and equipment for corrosion protection and thermal insulation materials and equipment 2.1 Corrosion and Protection 2.2 Equipment insulation thinking questions in Chapter 3 the theoretical basis of water process equipment container...
