Scientific Computing with MATLAB (Hardback)

By Dingyu Xue, YangQuan Chen

Taylor Francis Inc, United States, 2016. Hardback. Condition: New. 2nd Revised edition. Language: English . Brand New Book. Enhance Your Students Mathematical Problem-Solving Ability Scientific Computing with MATLAB(R), Second Edition improves students ability to tackle mathematical problems. It helps students understand the mathematical background and find reliable and accurate solutions to mathematical problems with the use of MATLAB, avoiding the tedious and complex technical details of mathematics. This edition retains the structure of its predecessor Solving Applied Mathematical Problems with MATLAB(R) while expanding and updating the content of each chapter. Based on the authors extensive teaching, research, and industrial experiences, the text adheres to the following course sequence: * An overview of the computer languages suitable for mathematics * Fundamentals of MATLAB programming * Calculus problems * Linear algebra problems * Integral transforms and complex variable functions * Nonlinear equations and optimization problems * Differential equations problems * Data interpolation and functional approximation problems * Probability and statistics problems * Nontraditional methods, such as fuzzy logic, rough sets, neural networks, evolution algorithms, wavelets, and fractional calculus The book bridges the gap between problems and solutions through well-grouped topics and clear MATLAB example scripts and reproducible MATLAB-generated plots. Students can effortlessly...
