Today we are going to embark on a journey back to the age of the dinosaurs. The dinosaurs are some of the most incredible animals that ever lived on our planet. They lived nearly 200 million years ago and thrived for about 165 million years. We humans have only been around for about 60,000 years and we have only been using computers for about 75 years. The dinosaurs mysteriously became extinct and disappeared from our earth, but left their fossilized remains behind. Dinosaur fossils have been constantly discovered in human history; the Chinese thought they were dragon bones and Europeans thought they were the bones of biblical monsters. Luckily, the scientific study of dinosaurs began in between 1815-1824 with the discovery of an Iguanodon fossil. Since then dinosaurs have been discovered all over the world. Their immense size, strange shapes, and wonderful natures make them inherently worthy of interest. The study of dinosaurs requires depth of imagination, analytical skills, and thought. The many unanswered questions about their lives, behavior, and disappearance provoke the curious to seek answers and ask even more questions. I hope this book fuels your imagination and makes you want to learn even more about dinosaurs. I hope you learn to appreciate the value of the dinosaurs and that you bring a...
