GOOGLE MARKETING ANALYSIS

GRIN Verlag Mai 2016, 2016. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Research Paper from the year 2011 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: A, University of Massachusetts Boston, language: English, abstract: 1.0 Executive Summary New and creative modes of thinking are outlined by the structure of the systems of business and marketing performed by Google. Google basic product is their engine used for searching and the generation of results that are relevant is of utmost attraction. The most fundamental thing is that Google involves their users in the search lists. Thus, the results are not only the works of Google but also those of their users. The acting and thinking system of Google Company provides a lot of distributed materials to the users offering ideas on businesses and even entrepreneurship. Majority of people prefer using Google instead of developing their own search sites. Google offers a range of options from offering maps, videos from you tube, and even ways of increasing budgets all offered freely. This way, Google is able to help much business whether small or big. 1.1 Introduction There are great lamentations worldwide that Google has become a monopoly and many institutions and companies have come up with goals that are common relating to the regulation of this giant in the internet. Google being the leading company in the internet world that receives millions of visitors every few minutes, it has to put in place certain workable marketing strategies. According to this report the marketing strategies that I will explain are the ones being applied by Google in their efforts to keep their visitors coming back and also getting new visitors. In the recent years Google and...
