New Society Publishers. Paperback. Condition: New. 192 pages. Dimensions: 8.4in. x 5.4in. x 0.4in. Dysfunctional cities, catastrophic climate change, ever-deepening distance from nature today we see environmental disaster everywhere we look. In *Mobilizing the Green Imagination*, philosophical provocateur Anthony Weston urges us to move beyond ever more desperate attempts to green the status quo toward entirely different and far more inviting ecological visions: Life after transportation decentralized work, inventive infill, and self-sufficient micro-communities to facilitate life in place. Adaptation with attitude: cities that welcome the rising waters. A great second chance: moving beyond exploitation of the whole natural world. A cosmic ecology: why not a green space program? These postcards from beyond the leading edge of today's green thinking are bold, audacious, extravagantly hopeful, and profoundly inspiring: the perfect antidote to the despair brought on by too many doom and gloom scenarios. Nothing less than a complete reinvention of contemporary environmentalism, *Mobilizing the Green Imagination* belongs in the back pocket of anyone who dares to dream of a brighter future and a better world. Anthony Weston is professor of philosophy and environmental studies at Elon University in North Carolina, where he teaches ethics, environmental studies, and Millennial Imagination. He is the author of twelve other books, including *How to Re-Imagine the World and Back to Earth*, as well as many articles on ethics, critical thinking, education, and contemporary culture. At Elon, Weston has been named both Teacher of the Year and Scholar of the Year. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
