Outskirts Press, United States, 2011. Paperback. Book Condition: New. 213 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.In a style that blends Southern Gothic elements with realist storytelling, Ben E. Campbell's stories examine all facets of modern Appalachia---the marriage of old-world values to a region caught in change, the fight to balance land use, the will to labor on. Here, in these twelve tales, is the age-old struggle of choice: between the path that's bathed in light and the one eclipsed by darkness---both seeking weary travelers, but one with stronger pull. In *Darkness Brought to Light* a hit man for hire attempts to forget his father's involvement with the Ku Klux Klan and the murder he witnessed of a young child while dealing with his own guilty present. A drug mule in *Finding Wyoming* experiences a chance encounter on the Greyhound he rides that will alter the path of his future. And the blue-collar workers of *The Split that Divides and Strike on the Meadow River* find themselves in familiar territory for the residents of Appalachia when they must decide where their loyalties lie, the choices they make certain to impact future generations. Written in a style that echoes such Appalachian realists as Harriette Arnow and Breece D J Pancake, these stories remind us of the spiritual and physical struggles that are unique to the people of the Southern mountains. It is a strong debut collection from an author on the rise.
