A first course in CLOUD
COMPUTING - made easy

LAMBERT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Cloud computing is the delivery of computing as a service rather than as a product, where by shared resources software and information are provided to computer are other device as a utility over a network. In a cloud computing system, there is a significant workload shift. Local computers no longer have to do all the heavy lifting, when it comes to running applications. The network of computers that makeup the cloud handles...

Reviews

Comprehensive information for book fans. It is one of the most amazing book i actually have read. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Yoshiko Okuneva**

This book is definitely worth buying. This really is for all who statte there had not been a worthy of studying. You will not sense monotony at at any moment of the time (that's what catalogs are for concerning should you check with me).
