Reviews

This is basically the greatest book i have got read through until now. It normally will not expense an excessive amount of. I am just delighted to let you know that here is the greatest book i have got go through within my individual existence and might be he finest book for at any time.

(Precious McGlynn)

PERSPECTIVES AS SYMBOLIC FORM (PAPERBACK)

ZONE BOOKS, United States, 1996. Paperback. Condition: New. Revised ed.. Language: English . Brand New Book. Erwin Panofsky's *Perspective as Symbolic Form* is one of the great works of modern intellectual history, the legendary text that has dominated all art historical and philosophical discussions on the topic of perspective in this century. Finally available in English, it is an unrivaled example of Panofsky's early method that placed him within broader developments in theories of knowledge and cultural change. Here, drawing on a massive body of learning that ranges over Antique philosophy, theology, science, and optics as well as the history of art, Panofsky produces a type of archaeology of Western representation that far surpasses the usual scope of art historical studies. Perspective in Panofsky's hands becomes a central component of a Western will to form, the expression of a schema linking the social, cognitive, psychological, and especially technical practices of a given culture into harmonious and integrated wholes. Yet the perceptual schema of each historical culture or epoch is different, and each gives rise to a different but equally full vision of the world. Panofsky articulates these different spatial systems, demonstrating their particular coherence and compatibility with the modes of knowledge, belief, and exchange that characterized the cultures in which they arose. Our own modernity, Panofsky shows, is characterized by its peculiarly mathematical expression of the concept of the infinite, within a space that is necessarily both continuous and homogeneous.
