As capitalism continues with business as usual, climate change is fast expanding the gap between rich and poor between and within nations, and imposing unparalleled suffering on those least able to protect themselves. In THE GLOBAL FIGHT FOR CLIMATE JUSTICE, anticapitalist activists from five continents offer radical answers to the most important questions of our time: ** Why is capitalism destroying the conditions that make life on Earth possible? ** How can we stop the destruction before it is too late? In 46 essays on topics ranging from the food crisis to carbon trading to perspectives from indigenous peoples, they make a compelling case that saving the world from climate catastrophe will require much more than tinkering with technology or taxes.
