MACHIAN MOND IN IDEAL AND FAKE GALAXIES: MILGROM MOND FAILURE IN FAKE GALAXIES BY GENERALIZATION OF TULLY FISHER RELATION (PAPERBACK)

Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.we test here Machian Mond with sample of the galaxies both ideal and fake and it is generalized here the Tully Fisher relation as an evident confirmation for Machian Mond as a clear failure to Milgrom Model. we observe experimentally that Milgrom mond is exact in points if it links Machian Mond and the paper is not a simulation and playing with equations suppose equations are perfectly argued and logical. by Machian Mond we find here some conditional relations that magically all are agreement in observations for example agreement of Tully-Fisher relation is depended conditionally to the agreement of the central potential energy in universal standard potential energy as a powerful evidence for Machian Mond and too some other equations and relations are appeared here that we will discuss those in the chapters. We have tested the Machian Mond, in the ideal and fake galaxies and the results verify the Machian Mond as the true equation of the modified Newtonian dynamics. We have used the sample of the galaxies in different types to show that Machian Mond is correct to explain all galaxies rotation curves whereas that the Milgrom model is limited to some especial and approximate formations for example Milgrom Mond is limited to a constant acceleration a_0 whereas that according to the Machian Mond, the equations are the more general and continuum so that in the fake galaxies, the Milgrom a_0 is not constant suppose constancy of the inertia below a radii with critical mean surface density causes to appear a Newtonian core.
