

The Macrolepidoptera of the World: A Systematic Description of the Hitherto Known Macrolepidoptera (Classic Reprint) (Paperback)

By Adalbert Seitz

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Macrolepidoptera of the World: A Systematic Description of the Hitherto Known Macrolepidoptera When in 1909 the last number of Volume I of the Macrolepidoptera of the World had appeared some critics expressed a doubt as to whether an undertaking of such magnitude could be carried out on the scale of the first volume. The friendly, even enthusiastic, reception accorded to Volume I has decided the fate of the entire work. From that moment there was nothing to hinder a rapid publication, and both editor and publisher have strenuously endeavoured to carry out the plans set forth in the preface to Volume 1. As the principal item in our programme was comprehensiveness, we have attempted, as far as the limited space would allow, at least to indicate all that is of value in determining and classifying the species, as well as to mention biological details. Frequently also remarks have been added which have reference to the relation of the Lepidoptera to the environment, food, protective measures, injuriousness, etc. Although the size of the present volume has hereby been increased, the...

Reviews

This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- *Cassandra Von*

This book will never be easy to start on reading but quite exciting to see. It is actually rally intriguing throug looking at period of time. Your daily life span will be convert once you total looking over this book.
