# Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and Mathcad Simulations (Hardback)

Filesize: 4.18 MB

Reviews

The most effective book i at any time read through. It is definitely simplistic but surprises in the fifty percent from the ebook. Your daily life span will probably be enhance once you full reading this ebook.
(Jules Dietrich V)

FUNDAMENTALS OF COMMUNICATION SYSTEMS: THEORY, VIDEO LECTURES, MATLAB AND MATHCAD SIMULATIONS (HARDBACK)

To read **Fundamentals of Communication Systems: Theory, Video Lectures, MATLAB and Mathcad Simulations (Hardback)** eBook, please access the link listed below and save the file or have accessibility to other information which are in conjuction with FUNDAMENTALS OF COMMUNICATION SYSTEMS: THEORY, VIDEO LECTURES, MATLAB AND MATHCAD SIMULATIONS (HARDBACK) book.

AppBooke, United Kingdom, 2015. Hardback. Condition: New. Revised Preface ed.. Language: English . Brand New Book ***** Print on Demand *****. Unlike a traditional book, this text contains the theory of both analog and digital communication systems supported by simulations (MATLAB Mathcad) and video lectures referenced throughout the chapters. These simulations and videos are accessed via its associated app, Communication Systems, in the iOS and Android app stores. Samples of the book, videos, simulations and app details are available on Based on the experience of lecturing for over eighteen years, this text begins with Fourier analysis, power and bandwidth, spectral density and random processes through a linear system to provide a solid foundation for the theory to be presented in the chapters to follow. An appendix on probability theory is also included with supporting simulations. Its only by interacting with the theory through different means (mathematical theory, problems with solutions, simulations with the option to modify parameters) can one begin to gain a deeper understanding of the underlying concepts and limitations. The author received his B.Sc. (Hons.), M.Sc. and Ph.D. from the University of Manchester, England (UK). A telecommunications research engineer with ERA Technology (UK) for two years and currently a senior lecturer at the University of the West Indies. Refer to the author s home page on for details of his publications.
