VDM Verlag Jun 2009, 2009. Taschenbuch. Book Condition: Neu. 220x150x6 mm. This item is printed on demand - Print on Demand Neuware - Maltepe developed as an industrial district in Ankara (Turkey) since the end of the 19th century, and served with the same function during the Republican period, until the 1950s when there were both necessities and requirements for transformation. This is a monographic study to examine the yet incomplete transformation of this old industrial district of Ankara. Investigating the significant reasons for its incompleteness, the study concentrates on the intrinsic dynamics of the process, and particularly on such major contributions of some political actors. Attempting to figure out the roles of political actors in urban transformations, and to evaluate the position of architectural production within such processes, the possible approaches for the similar forthcoming urban transformations are questioned, with special reference to the political framework and the position of architectural production within the same framework. 104 pp. Englisch.
