Cambridge University Press. Paperback. Condition: New. 271 pages. Dimensions: 9.6in. x 7.4in. x 0.8in. This concise introduction to modern climatology covers the key topics for intermediate undergraduate students on one-semester courses. The treatment of topics is non-mathematical wherever possible, instead focusing on physical processes to allow students to grasp concepts more easily. Full-color illustrations support the text and supplementary topics are covered in boxes, enabling students to further increase their knowledge and awareness. A historical perspective of climatology is woven throughout, providing students with an insight into key scientists and technological developments. Each chapter concludes with a summary of the main points and a mixture of review and discussion questions, encouraging students to check their understanding and think critically. A list of key web links to data and other resources, and solutions and hints to answers to the student questions (password-protected for instructors), are provided online to complete the teaching package. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
