## Intelligence, Surveillance, and Reconnaissance Support to Urban Operations

By Bichson Bush

Biblioscholar Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - This monograph addresses the research question: are there unique ISR capabilities to support urban military operations The desire to explore this research question is based on the conditions: (1) shift in demographics and economics to urban areas into 2030; (2) increase of U.S. military operations on the urban landscape since the 1990s; (3) potential use of urban areas by determined foes as an asymmetric approach; and (4) availability of literature questioning if there are adequate ISR capabilities to support urban military operations. The methodology for the research consists of a thorough literature review on the characteristics of an urban environment, especially the effects that it has on threat and friendly forces operations; ISR capabilities currently in the Army as well as part of ongoing research and development programs; and case studies of Grozny, Chechnya and Hue, Vietnam. Analysis of available literature was sufficient for making generalizations of the unique ISR capabilities required to support military operations on the urban terrain compared to the conventional, open battlefield. There is a need for innovative ISR capabilities on the modern urban...
