Excerpt from Ground Water in the Southington-Granby Area, Connecticut The study of the water resources Of Connecticut was begun in 1903 by Herbert E. Gregory, under the auspices of the United States Geological Survey. A preliminary report was issued in A discussion of the fundamental problems relating to the State as a whole, published in meets in a broad way the requirements Of the scientist and the engineer, but it is not designed to furnish a solution for local problems and is not sufficiently detailed to furnish data for use in a quantitative study Of ultimate supply and its utilization. It was recognized that conditions in the State are so varied that each section Of the State has its individual problem, and that in order to Obtain data of direct practical value the conditions in each town and, where feasible, around each farm and each village should be investigated. I Gregory, E. E., Notes on the wells, springs, and general water resources of Connecticut: U. S. Geol. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
