It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Brand New Book ***** Print on Demand *****. Globe Newswire reports that Dr. Iris Mack s mathematics edutainment book is turning heads across the country in a response similar to the widely promoted Hooked on Phonics, that improved children s reading skills. Her unique approach to math became one of Xlibris/Random House Publisher s top children s picture book royalty earners. If there is one word that sums up our recent economic woes, it is interest. Her financial literacy book Mama Says Money Doesn t Grow on Trees! is focused on teaching students that math can be fun and key to understanding money and interest. In today s world of subprime mortgage crises, derivatives, bankruptcies, massive credit card debt and predatory lending, Dr. Mack s book is more relevant than ever. In Mama Says Money Doesn t Grow on Trees! a group of smart, animated characters explain how money and interest work, as young consumers are introduced to mathematics and financial literacy. Professor O, Ms. Madonna Sorenson and Dr. Mackamatix lead students Al G Bro, Frakshun, Nada, Queen and Material Girl Ma\$ through a fun-filled math class all about how money and interest work in their everyday lives. I think the work you do showing how math can be beautiful and practical is great, keep it up! says Javier Tordable, Senior Software...
