Reviews

It is one of my personal favorite books. It is written in easy terms and never hard to understand. It has been designed in an exceedingly easy way and it is only after I finished reading this publication that I changed the way I think.

(PAPERBACK)****DOWNLOAD PDF**

AUTHORHOUSE, United States, 2008. Paperback. Condition: New. 2nd ed.. Language: English . Brand New Book ***** Print on Demand *****.Wayne Perry has been a therapist for more than thirty years, but he still hears the same thing from beginning counselors and therapists: Yes, I know what the theory says, but what do I do with this particular client? Drawing on his decades of experience training marriage and family therapists, professional counselors, and pastoral counselors, he answers that question in the updated edition of his landmark book: Basic Counseling Techniques. He provides practical suggestions for setting up the therapy room, using audiovisual recording equipment, and conducting those first critical interviews. You ll learn how to: apply nine different sets of clinical tools; select the appropriate tool for the appropriate clinical situation; and improve how you carry out the clinical thinking process. Each chapter concludes with a Living into the Lesson section that allows you to participate in experiential exercises to master what you ve learned. While designed for counselors and therapists in the beginning of their careers, even veterans in the field will find value in this updated edition.
