FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Louisiana Conservationist, Vol. 39: January/February 1987 The factor that deals the death blow, Mead added, and one which we don t have any control over is an advanced case of shock. It causes internal contamination that can be lethal. Even an animal that appears healthy more than likely is suffering the effects of shock - some degree of blood poisoning by intestinal bacteria. When dealing with a whale as large as this, the logistics of proper treatment (dousing it with gallons of sun screen, moving it to a facility to monitor for at least 24 hours, and/ or injecting the marine mammal with liters upon liters of antibiotics) exceed realistic expectations. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
