CHURCHES: This is a wonderful way for your small groups to study Islam in light of the Bible. Thanks to years of research, you can now own this exciting-well documented-resource to keep readily available for a quick reference on Islam. This volume contains not only the history of Islam, but also biblical and koranic comparisons, including a brief parallel of Muhammad and Jesus. There is a section on Sharia Law and an expose on what could well be the End Time religion called Chrislam (Christianity + Islam) including the list of signers of a Muslim-Christian pact known as the Yale Covenant. In our glossary there is a mini dictionary on Arabic and Islamic terms. In addition to this unique crash course on the foundations of Islam, we also have shocking, up-to-date revelations of current Islamic activities. Learn how Muslims in America and the West are implementing Sharia Laws in businesses, courts, schools and government. We cut through all the Islamic propaganda fed to us by politicians and the media by using the Koran, Hadiths and Bible to help the seeker of knowledge have a better grasp regarding the basics of this mysterious and often misrepresented religion. To further aid in understanding, we have developed tables and charts for the more complicated issues to make them easier to grasp. Find out how the founding fathers of this religion of peace met their deaths. Explore the accuracy regarding claims of biblical compatibility made by the Koran in light of the Bible itself regarding historical figures, events, times and places where they occurred. What is jihad? What is Sharia Law? Find out about this and more.
