Story Book had no idea how to pilot a transport ship. The narratives on her reader never taught her such things. But here she was, waking up on one. The trajectory from Pangea to the prison planet, Sintori-5, would have spelled her doom, had the ship not met with some mysterious mishap. She s alone, except for another surprising prisoner Story finds in the only other remaining suspension pod. She has some decisions to make. Does she rouse the Cephalosapien from the sleep pod? Does she abandon all hope? Maybe just engage in tentacle sex until the food is gone? Or does she choose to go from prisoner to pioneer, taking the ultimate chance, trusting her hybrid companion to get them away from the Garzi warships and then out of their relentless circling of Uranus? Sometimes the best decisions are the ones we make when we have no choice.
