I PROPOSE to consider the phenomena which are presented by the fakirs and yogis of India, and to inquire into their nature and the method of their production. The feats performed by Indian fakirs are numerous, but I shall describe those most commonly witnessed: the mango-tree trick, the basket trick, the bowl of water trick, the dry sands trick, the rope and dismembered body test, levitation, snake charming, burial alive, etc. As so much is heard of Indian magic, and the powers of the Oriental performer, it may be well to examine their performances somewhat critically, and to see how far we are entitled to assume that there is anything in them suggesting the supernormal, anything calling for explanations that necessitate the operation of laws other than those known to Western science.
