MedPAC also considered new technology introduced through formal national coverage determinations (NCDs). Between January 1, 1999 and December 31, 2002, CMS issued 18 NCDs related to coverage for physician and laboratory services and Part B drugs. We did not find that new technologies were introduced via these NCDs. In general, the NCDs formalized decisions made by local contractors, nullified local contractor coverage determinations, or specified that certain technologies would be covered only if provided to patients meeting specific criteria. Introduction of new technologies to the Medicare system Advances in science and medical technology are widely believed to have played an important role in the growth of Medicare expenditures over time. Advances in medical technology have added new services that have been extremely expensive, involving hospital stays that cost tens of thousands or even hundreds of thousands of dollars. In many cases, these new technologies have created new demands for physician office visits and other physician services and costly pharmaceuticals. Even where medical advances reduce per...
