These ten dystopian stories take scenarios of an unstable future and explore the depth, struggle, and joy of humanity. In Without the Tears, a nurse struggles to maintain his sense of humanity as nano-bot augmentation becomes the norm. Say Goodbye to the Future explores the feeling of taking the leap into a parallel universe.but missing it. Human survival is imperiled in Above Water in which citizens move underwater as Earth s sea levels rise to an inhospitable level -- but they are dependent on the cooperation of those who are in competition for dwindling resources. In A Hostile Act of Cupcake, a programming technician is accused of murder aboard a spaceship that lives on the edge of a black hole. And in the title story, The Black Lattice, the lives of space travelers coincide with the awakening of a sentient ship who holds a secret. When we discover the unfolding of our own dystopian futures, will you be prepared? Explore these visionary worlds created by a rising talent.
