

## Quantum Field Theory of Many-Body Systems: From the Origin of Sound to an Origin of Light and Electrons (Paperback)

By Xiao-Gang Wen

Oxford University Press, United Kingdom, 2007. Paperback. Condition: New. Reissue. Language: English . Brand New Book. For most of the last century, condensed matter physics has been dominated by band theory and Landau's symmetry breaking theory. In the last twenty years, however, there has been the emergence of a new paradigm associated with fractionalisation, topological order, emergent gauge bosons and fermions, and string condensation. These new physical concepts are so fundamental that they may even influence our understanding of the origin of light and fermions in the universe. This book is a pedagogical and systematic introduction to the new concepts and quantum field theoretical methods (which have fuelled the rapid developments) in condensed matter physics. It discusses many basic notions in theoretical physics which underlie physical phenomena in nature. Topics covered are dissipative quantum systems, boson condensation, symmetry breaking and gapless excitations, phase transitions, Fermi liquids, spin density wave states, Fermi and fractional statistics, quantum Hall effects, topological and quantum order, spin liquids, and string condensation. Methods covered are the path integral, Green's functions, mean-field theory, effective theory, renormalization group, bosonization in one- and higher dimensions, non-linear sigma-model, quantum gauge theory, dualities, slave-boson theory, and exactly soluble models...

### Reviews

*The ebook is straightforward in read better to fully grasp. I could possibly comprehend every little thing out of this composed e pdf. I found out this ebook from my dad and i suggested this pdf to find out.*

*-- Prof. Lorine Grimes*

*Undoubtedly, this is actually the very best job by any writer. It is loaded with wisdom and knowledge You will not really feel monotony at anytime of your respective time (that's what catalogs are for concerning when you check with me).*

*-- Prof. Lawson Stokes IV*
