

## RNP Particles, Splicing and Autoimmune Diseases Springer Lab Manuals

By -

Springer. Paperback. Condition: New. 225 pages. Dimensions: 9.2in. x 6.1in. x 0.5in. The first insights into the site and mechanisms of RNA processing to functional mRNA in eukaryotic cells came from the group of Georgiev (Lukanidin et al. 1972) who demonstrated the association of rapidly labelled, heterogeneous nuclear RNA (hnRNA) with a limited number of specific proteins in the cell nucleus. These informers, i. e. packaged precursors of mRNA (pre-mRNA or hnRNA), are in a form presumably amenable to the action of nucleases. With the availability of better analytical techniques, the considerable heterogeneity of hnRNA associated proteins was revealed (Niessing and Sekeris 1970), suggesting a role that was more composite, rather than solely structural, for these proteins. Later studies investigated the RNA binding behavior of these proteins (Schenkel et al. 1988, 1989; Wilk et al. 1983). For a long time, the small nuclear RNAs, well characterized with respect to primary structure (reviewed by Reddy and Busch 1983), were naively ignored regarding their function. Several events then set the stage for a detailed study of the intricate mechanisms of the splicing process and other steps involved in hnRNA processing: (1) The demonstration of a second class of nuclear ribonucleoproteins (RNPs), composed...

### Reviews

*A top quality ebook and also the font employed was interesting to read. This is for those who state there was not a worth studying. Your life span will probably be enhance when you total looking at this ebook.*

*-- Billy Christiansen*

*Simply no phrases to describe. It is actually rally interesting throug reading time period. Your lifestyle period will probably be transform the instant you complete reading this article book.*

*-- Rowland Bauch*
