Your body will, but you will live forever. You may even return for another lifespan on earth. Scientific medical research has proven the reality of reincarnation. That proves that a human soul leaves a deceased body, retaining its mind, memory, free will, and emotional ability, and after a residence in an afterlife reenters a new body. The same person leaves one personality and becomes another personality in a new earthly presence. Your soul never dies. What does that mean for your understanding of your life s meaning? Find out who you really are, an eternal person and an earthly personality; why you are here, to prepare for etermity; and where you are going when you die. You should know this because it is true for all living humans regardless of religious beliefs or secular apathy. This is scientific reality, not religious belief or faith. Science claims that you are a strictly physical being. But scientific medical research has proven that reincarnation is real, which confirms that you have a soul and a body.
