RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 Excerpt: . . . floors by the Vaughan System is greatly reduced. The entire elimination of false work and centering, the economical design of the joists that secure the greatest amount of strength for the minimum amount of materials and the great reduction in the handling of raw materials remove a large percentage of the cost of concrete floor construction. It is impossible to give definite figures for all localities as the price of materials and the labor conditions vary greatly. Prices will be furnished for use for estimating and the correct prices will be furnished upon receipt of plans and specifications or description of the building and any special conditions that must be observed. The small amount which they may run above non-fireproof construction is hardly worth considering when taken in proportion to the cost of the building and the proportionate reduction which can be secured in fire insurance rates and the increased safety. A concrete sewer six miles long, 1012 feet to 4 feet, will be built by the city of East St. Louis, 111. The O. T. Dunlap Company, Edwardsville 111. , have been awarded the contract. About 700, 000 will be expended and includes about 30, 000 cu. yds. of concrete masonry. Sterling Construction Co. of Newark N. J. , has been incorporated with a capital of 100, 000. The incorporators are: Roland D. Crocker, Henry H. Poole and Edward F. Wheelan. The company is to do a general contracting and construction business. CEMENT COMPANY REORGANIZED....
