Kingfisher. Paperback. Book Condition: New. Paperback. 32 pages. Dimensions: 10.4in. x 8.8in. x 0.2in. About the Series Each book in this essential series reveals the life cycles of ten animals in a particular habitat which link together to create three food chains. At the end of the book a simple overview helps readers understand how the three food chains interact to create a food web- the perfect first introduction to this core science concept. Because the harsh environment of the desert makes resources scarce, the animals that make their home in the worlds driest environments are intimately interconnected. This highly-visual title explores three desert food chains in three of the globes driest regions: the Kalahari in Africa, the Australian Outback, and the Mojave Desert in the US Southwest. Along with a clear explanation of each lifecycle, the book highlights three key facts about each animal, and color-codes the foodchains for easy navigation. From the smallest inhabitants like the termite and the millipede, right through the predators at the top of the food chain such as the Jackal and the Bobcat, young readers will thoroughly understand how each animal is critical for sustaining the entire desert ecosystem. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
