Definitely one of the better book We have possibly read. We have read through and i also am certain that i am going to gonna study once again yet again in the foreseeable future. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Createspace. Paperback. Condition: New. This item is printed on demand. 136 pages. The pendulum has swung too far. Politically correct nonsense, inane product labels, backstairs earmarks, parental lameness its just too much. As a society, we are in crisis mode. From our individual behaviors to who we vote into government office, our speech, thoughts and actions must change, must transcend the prior 50 years of neglectful, hurtful irresponsibility. But in order to set about change, we must first travel back to our Founding Fathers intent, our grandparents traditions and our individual goals as part of truly being an American. Why have attitudes changed so dramatically in the past 50 years When did Americans start wanting everyone else to do for them Why does the Government continue on the path of believing they know whats best for the public What would happen if the government stopped growing and intruding in our lives Can it be changed What needs to happen for change to occur My essays nail down, in print, what Americans are feeling today. They will evoke agreement and anger. Most of all they will provoke conversation. I hope you enjoy them. This item ships from La Vergne, TN. Paperback.
