RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 26 pages. Original publisher: Washington, D. C. : U. S. Dept. of Agriculture, Rural Development, 2006 OCLC Number: (OCoLC)263688703 Subject: Alcohol fuel industry -- Information technology -- United States. Excerpt: . . . put down quite easily in almost any location. They Business processes and information also provide the financing and the feasibility work, technology and will hand-hold the producer-investors through the Distributed control systems entire process. They can offer an entire package--from feasibility study to turn-key and beyond. Prior to the mid-1980s, process automation was This prospect didnt exist in the early 1990s, when comprised of analog loop controls and complex pneu-there were still a lot of questions on what was the right matic controls with individual, large circuit boards way to build a plant. Because there were no standard-dedicated to each control loop. These systems were ized designs, builders of a 30-million-gallon-a-year normally located in control rooms, so the sensors and plant had to go a more traditional construction route--controller outputs had to be physically connected to hiring a process firm, a detailed engineering design the control room. This resulted in large cable runs full firm,...
