

## Architectural Acoustics

Filesize: 1.73 MB

### **Reviews**

*This book is definitely not effortless to start on looking at but really exciting to see. It really is simplistic but surprises from the 50 % from the pdf. I am just effortlessly can get a delight of looking at a published book.*  
*(Thurman Schamberger)*

## ARCHITECTURAL ACOUSTICS

[DOWNLOAD](#)

Condition: New. Publisher/Verlag: Springer, Berlin | Blending Sound Sources, Sound Fields, and Listeners | Proceeding from basic theory to design studies of concert and multiple purpose halls, the author introduces a remarkable seat selection system for the analysis of new and existing halls, and proposes a diagnostic system for testing the physical properties and calculating the psychological attributes at any seat after a hall is built. The book also presents a theory of subjective preferences, based on a model of the auditory cognitive system in the brain. Readers can thus follow the temporal and spatial values that may be associated with the left and right cerebral hemispheres in listening to music and speech, respectively, in a room. From the results of calculating subjective preference at each seat, for example, architects, musicians, and acoustical engineers concerned with the design and use of concert and multi-use halls may determine the best location to perform a certain type of music on the stage, as well as the best seats from which to listen. | 1. Introduction.- 2. Short Historical Review for Acoustics in a Performing Space.- 3. Physical Properties of Source Signals and Sound Fields in a Room.- 3.1. Analyses of Source Signals.- 3.2. Autocorrelation Function of Piano Signal with Varying Performing Style.- 3.3. Sound Transmission from a Point Source to Binaural Entrances.- 3.4. Physical Factors of Sound Field.- 3.5. Simulation of Sound Field.- 4. Subjective Preference as an Overall Impression of the Sound Field.- 4.1. Subjective Preference of the Simple Sound Field.- 4.2. Orthogonal Properties of Acoustic Factors.- 4.3. Optimum Design Objectives.- 4.4. Theory of Calculating Scale Values of Subjective Preference.- 4.5. Examination of Subjective Preference in an Existing Hall.- 5. Human Hearing System.- 5.1. Physical Systems of Human Ears.- 5.2. Influence of Electro-Physiological Responses from Auditory Pathways and Human Cerebral Hemispheres...
