

The Prodigal Tongue: The Love-Hate Relationship Between American and British English (Paperback)

Filesize: 3.19 MB

Reviews

A fresh e-book with a brand new point of view. It really is packed with knowledge and wisdom. It's been designed in an exceedingly simple way and is particularly simply following. I finished reading this publication through which actually modified me, alter the way I really believe.

(Bernhard Russel)

Penguin Books, 2018. Paperback. Condition: New. Language: English . Brand New Book. An American linguist teaching in England explores the sibling rivalry between British and American English. If Shakespeare were alive today, he'd sound like an American. English accents are the sexiest. Americans have ruined the English language. Technology means everyone will have to speak the same English. Such claims about the English language are often repeated but rarely examined. Professor Lynne Murphy is on the linguistic front line. In *The Prodigal Tongue* she explores the fiction and reality of the special relationship between British and American English. By examining the causes and symptoms of American Verbal Inferiority Complex and its flipside, British Verbal Superiority Complex, Murphy unravels the prejudices, stereotypes and insecurities that shape our attitudes to our own language. With great humor and new insights, Lynne Murphy looks at the social, political and linguistic forces that have driven American and British English in different directions: how Americans got from centre to center, why British accents are growing away from American ones, and what different things we mean when we say estate, frown, or middle class. Is anyone winning this war of the words? Will Yanks and Brits ever really understand each other?.
