Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Teaching and Learning examines how we all learn from life and how as teachers we can share our knowledge with others. It explores the most effective ways we can learn from the mysteries of life. We often miss out on some of the most precious things in life, because we are distracted, unwilling, or unprepared for them when they come into our life. We are all students throughout our lives seeking to learn things on the road of life. We are also teachers who guide those around us on the path that we deem beneficial. Often in education it is the fundamental basics of learning that is neglected for what we believe is technology, progress, and the best practice of the current trend. Yet the human brain has never really changed for thousands of years and the process at which it learns has never changed either. We may forget from time to time how learning takes place, and what it important to teach causing a loss of wisdom and knowledge. But in the end we always come back to how true knowledge and wisdom is obtained. Teaching and Learning is for everyone who has called them a student or a teacher. It is for the parent who teaches her children how to cope with life. It is for the first year teacher and the veteran teacher who wants to instill in her students the knowledge she has acquired over the years. It is for the struggling college student and the student who is just awakening to the importance of her education. It is for those who want to learn and those who want to teach. It is a book that will help all...
