NASA is not obligated to select a Mission of Opportunity under this solicitation. The Explorer program expects Missions of Opportunity, like SMEX investigations, to meet other program objectives for reducing cost, injecting new technology, and enhancing education and public outreach. Note that if a Mission of Opportunity is selected, a reduced flight rate of future Explorers will result. This assessment will focus primarily on the proposed science investigation. Proposals will then be categorized in accordance with the NASA Federal Acquisition Regulation Supplement (NFS) Part 1872. 0. The results of the proposal evaluations and categorizations will be reviewed by the Space Science Steering Committee which will conduct an independent assessment of the evaluation and categorization processes. After this review, the final evaluation and categorization results will be presented to the Associate Administrator for Space Science, who will make the selections for a six-month Phase A concept study. It is anticipated that up to eight SMEX investigations will be selected for concept studies....
